## Technical Skills

**Languages:** Java, JavaScript, Typescript,

**Web Development Frameworks:** Spring boot, Microservices, Angular, Node JS, Express JS

**Databases:** PostgreSQL

**DevOps and Automation:** Terraform, Docker

**Cloud Services:** Azure

**Tools:** Git, Postman

## Experience

Capgemini, Bangalore

July 2022 - Present

Senior Software Engineer

Bangalore, Karnataka

- Developed a **Generative AI** solution leveraging **Azure AI Search** for efficient data retrieval and **GPT-4o** for advanced generation capabilities.
- Designed and developed **RESTful APIs** using **JAVA** and **Spring Boot** creating user-friendly interfaces with **Angular**.
- Built **RESTful APIs** using **Node.js** and user-friendly front-end development using **Angular**.
- Full-stack development** using **Node.js**, **Express.js**, **Sequelize ORM**, **PostgreSQL**, **Angular** featuring a **robust** and **scalable architecture** with a well-defined database schema and an interactive user interface.
- Developed and executed unit and integration tests using **Jasmine** and **Karma**, achieving over **80%** code coverage and ensuring optimal performance and stability.
- Designed and developed a dynamic web application using **Angular**, incorporating the **Ionic Framework** and **Capacitor** to optimize mobile responsiveness and integrate native device features, delivering a seamless cross-platform experience.
- Worked on various **Use Cases** including designing and implementing secure **Role-based access control systems**, automating **Server Log Analysis** for enhanced monitoring, building efficient **File Transfer** solution and **Test-Driven Development**.
- Contributed in enhancing the maintainability and performance of a **Node.js** application by effectively **refactoring** the codebase, **reducing complexity**, and improving readability and efficiency.

## Projects

Hotel management system | *Angular, Java, Microservices*

May 2022

- A hotel management system featuring room booking, pricing categories, guest registration built using microservice architecture. Github Link - <https://github.com/souravkumarkuila/Hotel-management-system-backend>

Amusement Park Booking System | *Angular, Node.js*

Oct 2024

- A Booking Platform where users can easily book tickets based on ticket types using Angular and Node.js. Link - <https://github.com/souravkumarkuila/Amusement-park-backend>

E-Commerce | *Angular, JSON Server*

Sep 2023

- Developed a e-commerce app featuring product listing, search and cart. Github Link -

<https://github.com/souravkumarkuila/E-Commerce>

Bachelor of Technology- Biotechnology

Chennai, Tamil Nadu

SRM Institute of Science and Technology

June 2018 – May 2022

CGPA : 8.59/10

Higher Secondary Education

June 2015 – March 2017

Vikash Residential School

Bhubaneswar, Odisha

Percentage : 80.6%

## Certifications

- AWS Certified Developer - Associate.** [link](#) Sep 2024
- AWS Certified Cloud Practitioner.** [link](#) Oct 2022
- Google Cloud Digital Leader.** [link](#) Nov 2022
- Microsoft Certified: Azure Administrator Associate.** [link](#) May 2025
- Microsoft Certified: Azure Fundamentals.** [link](#) Sep 2023
- Generative AI Fundamentals.** [link](#) Jun 2023
- Agile Software Development.** [link](#) Oct 2022
